

# LASIK, Refractive Surgery

State-of-the-art technology, board-certified physician care

## Nation-leading care

For more than 100 years, the Eye Center at The University of Kansas Health System has offered the most advanced, evidenced-based eye and vision care.

Using state-of-the-art Excimer laser systems, the Eye Center's highly skilled surgical team helps patients with very low to moderately high degrees of nearsightedness, farsightedness and astigmatism enjoy life without eyeglasses or contacts.

## Conditions treated

- Astigmatism
- Farsightedness
- Keratoconus
- Nearsightedness

## LASIK, refractive surgery services

- LASIK (laser in-situ keratomileusis)
- SBK (sub-Bowman's keratomileusis)
- PRK (photorefractive keratectomy)
- LASEK (laser epithelial keratomileusis) or advanced surface ablation
- Intacs (corneal ring segments)
- Intacs for keratoconus

Options vary based on vision conditions and the type of cornea intervention to best treat the eye.

## Am I a candidate?

LASIK and refractive surgery candidates should have a stable vision correction script and be at least 21 years of age. Those who are pregnant, planning to become pregnant, breastfeeding or have been treated with Accutane in the last six months are ineligible. A general optometrist can help assess if you're ready for an evaluation.

## Evaluating treatment plans

Eligible candidates should schedule a complimentary evaluation to assess if LASIK or refractive surgery is right for you. Your evaluation will include vision and corneal testing. Kenneth Goins, MD, will review these results and provide your customized treatment plan.

Dr. Goins is a fellowship-trained, board-certified, cornea and refractive surgeon with certifications in the VISX WaveScan WaveFront Systems and IntraLase® FS Laser.

## Financing your care

LASIK and refractive surgery quotes are total cost per eye, including postop appointments for the first year. We accept all forms of payment, including health savings accounts and CommerceCare™ – a fast, flexible and patient-friendly extended financing solution.

The University of Kansas Medical Center, The University of Kansas Health System and the University of Kansas employees may be eligible for employee discounts.
