### Retirement Savings Plans

The University of Kansas Health System cares about you as a valued employee. One of the benefits we provide you is one for when you are no longer working - retirement savings plans. These plans give you an excellent opportunity to potentially accumulate money for a more secure retirement; and when you contribute, you not only save for the future, you also benefit from the opportunity for tax-deferred growth.

Administration services for our retirement savings plans are provided by Fidelity Investments. Fidelity is available to answer your questions related to the plans. We encourage you to understand these opportunities and take advantage of them to help attain a more financially secure retirement. Here is an overview of the 457(b) and 401(a) retirement savings plans.
