The University of Kansas Health System Prescription Drug Formulary

Effective Jan. 1, 2027

The University of Kansas Health System and Judi Rx want to support you in achieving your best health while helping you manage your medication costs. We prepared this formulary to ensure you have access to a robust offering of medications to meet your needs.

*If you have questions about whether a medication is covered, call **Judi Rx** at **833-599-0951.***

About the formulary

This is the list of medications covered by the HSA Advantage and Signature medical plans. It's important you understand this list and refer to it frequently to avoid unexpected costs. We encourage you to share the formulary with your prescriber to help choose covered medications that are right for your care and your budget.

Certain medications, even when they are on the list, require approval from Judi Rx before coverage will be provided. Learn more about prior authorizations in the Pharmacy Resource Guide: KansasHealthSystemBenefits.com/RxGuide.

The formulary:

- Is based on the recommendations of a committee of highly skilled physicians and pharmacists who review drugs regulated by the U.S. Food and Drug Administration (FDA).
- Keeps up with modern medicine. Drugs newly approved by the FDA will be covered after the committee described above has fully evaluated them.
- Helps manage cost by encouraging use of generic medications. Once a new generic is launched, the brand will be excluded from the formulary two quarters following the date of the generic medication launch.
- Does not include drugs that have not been approved by the FDA or over-the-counter (OTC) medications.
- Ensures clinical efficacy and safety, balanced with cost considerations.
- Is reviewed and, when needed, updated quarterly throughout the year.

Understanding your cost

Both medical plans – the HSA Advantage Plan and Signature Plan – include prescription medication coverage.

How you pay for prescriptions is very different depending on which plan you choose as illustrated in the chart on the following page.

Reading the formulary

The formulary uses codes that are important to understand because they inform your share of cost. The abbreviations in the chart below will be listed in the third column of the formulary and describe conditions unique to that medication.

In addition to the letter codes, other meaningful keys are:

- The tier number appears in the second column of the formulary, next to the drug name.
- Generic drugs are displayed in lowercase italicized lettering. Generic drugs generally have the lowest cost share.
- Brand name drugs are displayed in UPPERCASE LETTERING. Brand drugs may be removed from your drug list after a generic equivalent becomes available.

Selected formulary codes

TYPE		DESCRIPTION
S	**Specialty Drug**	Specialty medications are high-cost drugs used to treat complex or rare conditions, such as multiple sclerosis, rheumatoid arthritis, hepatitis C, and hemophilia. These must be filled by the health system pharmacy and may only be filled for 30 days or less.
MNT	**Maintenance**	Maintenance medications are commonly used to treat chronic, long-term conditions such as diabetes, high blood pressure or asthma. These medications must be filled by the health system pharmacy and will be delivered to your preferred address for a 3-month supply.
PRV	**Preventive**	Preventive medications are offered at the Signature Plan copay amount for HSA Advantage Plan members, which is typically less than the deductible plus coinsurance.
PA	**Prior Authorization**	You (or your physician) are required to get prior authorization before you fill your prescription for this medication. Without prior approval, this drug may not be covered.
ST	**Step Therapy**	With step therapy, you may be required to first try certain medications to treat your medical condition before the health system's plan will cover another medication for that condition.
SNP	**Insulin Pens**	Covered insulin pen needles and insulin syringes are available for $0
ACA	**Affordable Care Act**	This medication is available for $0 based on the Affordable Care Act.
OC	**Oral Chemotherapy**	Covered oral chemotherapy medications are available for $0 once approved for use by Judi Rx. For HSA Advantage Plan members, the deductible must be satisfied before the $0 cost share applies.
QL	**Quantity Limit**	There is a quantity limit on the amount of medication that is covered per prescription. For example, the limit may only allow 2 doses per day.
QVT	**Quantity Limit (Custom)**	There is a limit on the amount of medication that is covered during a specific time frame. For example, a prescription may only be allowed to be filled every 6 months.
AL	**Age Limit**	This medication may only be covered if you meet specified age requirements.
GL	**Gender Limit**	This prescription drug may only be covered for a single gender.

Medications that do not appear on this list are excluded under the health system formulary. If your prescribed medication is not covered, please contact your doctor to see if a covered alternative is right for you. If your prescriber determines that you require a medication that is not covered on the health system formulary, a drug exception request with clinical documentation may be submitted.

*If you have any questions about whether your medication is covered, call **Judi Rx** at **833-599-0951**.*
